STEP 1
Mid FEB
& Late MAR

Provides pre-emergent control of Crabgrass and control or suppression of other listed weeds when applied prior to germination and emergence. Can be applied up to 4 weeks later than other pre-emergent Crabgrass preventers.

STEP 2
Early MAY

Provides excellent post-emergent broadleaf weed control on cool and warm season grasses. Contains three weed killers to stop Dandelions, Spurge, Dollar Weed, Wild Onion, Chickweed, Clover and over 200 broadleaf weeds, many of which are listed on the label.

STEP 3
APR - MAY

For use on lawns and around buildings. Controls White Grub larvae (such as Japanese Beetle larvae, Chafer, Asiatic Garden Beetle, Oriental Beetle) and other listed pests. Helps protect your home from invading Ants, except Carpenter, Red Imported Fire Ant and Pharaoh Ants

STEP 4
JUN, JUL & AUG

A good all-around lawn food with Iron for fast immediate greening on all types of lawns. It contains two types of Nitrogen, which allows for quick greening and long term stable growth.

STEP 5
Early SEP & NOV

Provides pre-emergent control of Crabgrass and control or suppression of other listed weeds when applied prior to germination and emergence. Can be applied up to 4 weeks later than other pre-emergent Crabgrass preventers.

STEP 6
DEC - JAN

Is one of the best things you can do for your lawn, garden and landscape beds. Helps raise soil pH and create the proper environment for growth. Use anywhere you have low pH conditions such as on moss, dog spots, bare spots or excessive weeds.
